Image Analyst Wanted, See the World

Project Title	Image Analyst Wanted, See the World
Project Summary	Identify agricultural land around the world for a team creating data for food security calculations.
Country	United States
Agency	Geological Survey
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	2

Project Description

You will produce data needed to generate and validate land cover maps. You will join a team that is using a cutting edge cloud computing environment to determine cropland areas in countries across the world and is advancing science. In depth training will be provided.
See the world (from your computer screen). Co-authorship in leading scientific publications is a possibility. Gain visibility and job experience with the USGS!
